WHO WE ARE

We are Online Language Lessons — a specialist school based in London, UK, focused on English training for Italian-speaking professionals and corporate teams.

Our teachers are handpicked, Cambridge-certified, and fully bilingual. They understand the specific challenges Italian speakers face — and know exactly how to overcome them.

OUR APPROACH

Most Italian professionals know written English — but freeze the moment they need to speak: on calls, in meetings, with international clients.

We change that dynamic.

We focus on spoken communication, pronunciation and confidence — so your team doesn't just 'study' English, they actually use it at work from day one.
